

## Winsor Fire Rescue Essay

Vincent Massey Secondary School

Ever since I can remember I've always wanted to become a firefighter. Be the one who everyone waves at, as the big red truck drives down the street. Be the one that kids look up to and smile at. I can remember always thinking that no matter what career I had I always wanted to make a difference for my community. But now I'm sticking to it and saying I want to become a firefighter. No matter how much I have to work to become a firefighter I'm willing to do it. I'm ready to take the responsibility.

I've always thought, and still think, that being a firefighter would be an honor. Working with other people as a team to get the job done is also another positive side of the job. I've always dreamt that I could be so fortunate as to having a team to work with and others to look to when I need help. I can honestly say that there has never been a time in my life when I have wanted to work alone.

Sure there are positive and negative parts to every job, but even in the toughest situations I know to keep my head up and keep trying to the best of my ability till the job is done right. I fight for what I believe in and put up a great battle to get my work done no matter what I have to do I'll pull myself through.

I have done a lot of work to help the community already, and I'd like to further my experience by being a Windsor Fire Rescue co-op student. I think helping the community as a firefighter would be a life changing experience for me. I like to help people out in the darkest of their days, Like people helped me out when I went through some rough times in my life. I want to help them out to the best of my ability. I am ready for this job. I can take care of whatever this job has to offer. I am up for a challenge.

I know some people have dreams of being in the NBA or even becoming an actor or actress, but that's their dream. Mine is becoming a firefighter. This is where my heart is at. No matter what I'd strive to be the best I can be. Please consider me in being a part of Windsor Fire Rescue as a firefighting co-op student. Thank you.
